## About Us

---

### Who We Are

RoofsnWalls is a dedicated waterproofing company with over a two decade of experience in protecting homes, commercial buildings, and government infrastructure. We specialize in finding the root cause of water leakage and delivering long-lasting solutions — not just temporary fixes.

Our team of trained waterproofing professionals has worked on over 500 projects — from single-family homes to large government buildings — across tier 2, and tier 3 cities.

**We believe every homeowner deserves a dry, safe, and damage-free living space.**

**25+**

Years of Experience

**500+**

Projects Completed

**100%**

Satisfaction Focused

## Our Services

---

*We offer end-to-end waterproofing solutions for every part of your property — from rooftops to foundations.*

Service	What We Address	Key Benefit
<b>Terrace Waterproofing</b>	Cracks and poor drainage on terraces allow rainwater to seep in, causing damage to slabs and ceilings below.	<b>Benefit:</b> Prevents water seepage, protects the slab, and keeps your home dry — even in heavy monsoon.
<b>Basement &amp; Foundation Waterproofing</b>	Rising dampness and hydrostatic pressure from soil can weaken your building's foundation over time.	<b>Benefit:</b> Protects the structural integrity of your building and prevents costly long-term damage.
<b>Water Tank &amp; Sump Waterproofing</b>	Leaking tanks waste water and allow contaminants to enter your water supply.	<b>Benefit:</b> Ensures clean water storage, eliminates leakage, and extends the life of your tank.
<b>Bathroom &amp; Wet Area Waterproofing</b>	Bathrooms are high-moisture zones. Without proper waterproofing, leaks spread to adjacent walls and flooring.	<b>Benefit:</b> Prevents mold, dampness, and structural damage in the most water-prone areas of your home.

<b>External Wall &amp; Structural Waterproofing</b>	Rainwater penetrating outer walls causes paint peeling, seepage, and weakening of structural elements.	<b>Benefit:</b> Shields exterior walls from water damage and keeps your interiors dry and clean.
<b>Government &amp; Infrastructure Waterproofing</b>	Large infrastructure projects require specialized, durable waterproofing across bridges, tunnels, and public buildings.	<b>Benefit:</b> Delivers long-lasting, code-compliant protection for large-scale infrastructure assets.

## Why Choose RoofsnWalls?

---

*We don't just waterproof — we solve water problems permanently.*

### ✓ Quality You Can See

We use industry-grade waterproofing materials — no shortcuts, no substandard products.

### ✓ Solutions That Last

Our treatments are designed to protect for up to 10 years, with proper care and maintenance.

### ✓ Skilled & Trained Team

Every project is handled by experienced waterproofing specialists, not general contractors.

### ✓ On-Time, Every Time

We respect your schedule and commit to completing work within the agreed timeframe.

### ✓ Transparent Pricing:

No hidden charges. You get a clear quote upfront — and we stick to it.

### ✓ After-Service Support

Our relationship doesn't end at project completion. We stand by our work and are available for follow-ups.

## How We Work

---

*A simple, transparent process — so you always know what to expect.*

01

### Free Inspection

Our expert visits your property to assess the affected areas — at no cost to you.

02

### Problem Identification

We identify the root cause of water seepage, not just the visible symptoms.

03

### Solution Planning

We recommend the right waterproofing method and materials specific to your problem.

04

### Professional Execution

Our skilled team carries out the work with quality materials and clean workmanship.

05

### Final Check & Handover

We test the treatment, do a final walkthrough with you, and ensure your complete satisfaction.

## What Our Customers Say

---

*Real stories from real homeowners who finally got lasting relief.*

*"We had a leaking terrace for 3 years. Two other contractors tried and failed. RoofsN Walls fixed it smoothly and it has been dry ever since through two monsoons now."*

— **Rajesh M.**  
Homeowner, Jabalpur

*"Our basement would flood every rainy season. After their foundation treatment, we haven't had a single drop of water. The team was clean, professional, and finished on time."*

— **Sunita K.**  
Villa Owner, Sagar

*"I was worried about the cost, but their pricing was fair and upfront. No surprises. The bathroom waterproofing they did has completely stopped the seepage into the room below."*

— **Vikram S.**  
Apartment Owner, Jabalpur
